

Amendments to the Specification

Please amend the paragraph (section) beginning on page 6, at line 9 as shown below:

Collar 48 includes two diametrically opposed screws 50 having heads 52. Each screw 50 is screwable partially into collar 48 to create a gap 51 between collar 48 and head portion 52. Bearing block 24 also includes two diametrically opposed screws 50 having heads 52, as shown in Figure 2. Likewise, there is also a gap 51 along screw 50 between bearing block 24 and screw heads 52. ~~Restive~~ Resistive elements 54 are banded within gaps 51 on corresponding screws 50 of bearing block 24 and collar 48. In some case, each gap 51 may include a spacer covering the threads of screw 50.
